ClassicBets

We are the classics

White Paper

v 1.0a

CONTENT

ClassicBets Project will be Online gaming and betting platform stylized to Vintage era of 60', 70' and 80' years of 20th century with fancy pop art graphic and classical "old-time" games.

ClassicBets Online platform will be realized as expandable platform with independent modules, where module represents one game.

ClassicBets Online platform will be targeted to classic games, like Bingo (many variations), Dices (many variations), Lottery games (huge amount of variations), Scratch cards (many variations) and many many more in "vintage oldies style".

ClassicBets Online platform will be driven by own cryptocurrency called CBET Coin. All payments, bets, tickets and prizes will be calculated in own cryptocurrency , which will be exchangeable on more digital markets. CBET Coin cryptocurrency will offer to investors high investment returns by building masternodes or by staking CBET coins in hot desktop wallets.

Launch of ClassicBets Online platform for gaming & betting is projected to Q4'2019 for initial Alpha release with first online games and to Q1'2020 for full release with all planned games. ClassicBets platform will be expandable with independent modules in future.

ClassicBets Core Team realize discussions with European gamming communities and work on implementation of CBET Coin on another platforms.

- Section B -
CBET COIN

ClassicBets [CBET] is an open source cryptocurrency focused on fast private transactions with low transaction fees. It utilizes a custom Proof of Stake protocol for securing its network and uses an innovative variable seesaw reward mechanism that dynamically balances block reward size between masternodes and staking nodes.

The main goal of **ClassicBets [CBET]** is to achieve a decentralized sustainable cryptocurrency with near instant full-time private transactions. **ClassicBets [CBET]** is planned to be the only one cryptocurrency at our ClassicBets online Gaming & Betting platform.

ClassiBets [CBET] Masternodes

Masternodes may be described as the backbone of the **ClassicBets [CBET].** It literally means that they are essential nodes on the network, running the same software wallet on the same blockchain protocol, which provide extra services and features to the network and users. The purpose of masternodes in the **ClassicBets [CBET]** network is transaction processing and on-going assistance during the process of new blocks' creation. In this way, masternodes receive block rewards.

ClassicBets [CBET] coin enables you to possess your own masternodes, what, in consequence, guarantees you will be granted not only with a part of the block reward, but also with a privilege to obtain an access to selected games and events. It is undoubtedly a bonus in exchange for the contribution to the development of **ClassicBets Online Gaming & Betting** platform.

PROJECT ROADMAP

JUNE 2019
- ClassicBets Project Launch
- Website for ClassicBets CBET
- Social Pages
- BitcoinTalk Thread
- BetweenBlocks Thread
- Public / Support Twitter Account
- Telegram for CBET Support
- BlockChain Explorer for CBET
- GitHub Repository / Documents / Mans
- First Initial release of CBET Code
- Windows / Linux Wallets and Daemons
- Discord Server Launch
- Hiring Discord Team (Support & Mods)
- Presale Launch
- Start of Project propagation
- Micro Airdrops
- Twitter Bounty
- Invite Bounty
- Article Bounty
- Translations Bounty

Q3-2019
- Second Exchange listing
- Third Exchange listing
- Next MN Monitoring listing
- Updated Website
- Next MN Sharing Services listing
- Discord Games (CBET Promo)

JULY 2019
- Presale of CBET end
- First exchange listing
- MN Monitoring services listing
- Srared Masternode Services listing
- MacOS/OsX Wallet and Daemon
- Promo for CBET
- Second Article Bounty
- Second Twitter Bounty
- Second Micro Airdrop
- Continuing with Invite Bounty
- Continuing with Promo for CBET
- **LAUNCH of ClassicBets Online Gaming and Betting platform development**

Q4-2019
- **Alpha Release of ClassicBets Online Gaming and Betting platform**
